PERMANENT STUCCO WASH,
WITHOUT SIZE OR OTHER OBJECTIONABLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and Co.'s Patent Chemical Stone Imitation Cement is the best material in the world for all kinds of external work, consistently adapted to the wants of the Trade and the Public generally, as possessing many advantages over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—JOHNS' Hard WASH OFF—is particularly dry to apply on Stone, and is hardened in a few days. It is also peculiarly adapted for Hall-door Steps, Dairies, Warehouses, Barracks, Schools, Prisons, &c. (one cwt. will cover 300 square yards. It will not peel nor flake, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few hours; never blisters, cracks, or repeats; when trowelled is a hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its applicability to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HAMLET, at the Warehouse, 69, Broad-road, Upper Thames-street. A liberal allowance to wholesale dealers.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The best time for its use is during the hot and dry months of summer, having scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors, of the above, at his best quality.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, sulphuretted hydrogen, or any of the gases, and preserves its original colour where white-lead paint will not. Also Grey Zinc Paint, strongly recommended for iron work.—Sold wholesale by JOHN WARNER and SONS, 8, Crescent, Jewin-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This eminent white, the favourite pigment of the students, has been used by artists through successive generations, and is well known to the members of the Royal Academy under the old name of Permanent White.

Three years since the proprietors placed their manufactory on a large scale, and offered it at a price to compete with White Lead.

The successful introduction of this paint, and its continued superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing sulphur, lead, arsenic, and other deleterious material, while injurious to health, deficient in body, and retaining the pernicious properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties whatever, it is beautiful in the manufacture, healthful in use, and beautiful in consequence of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior articles, each cask is stamped

"HUBBUCK, LONDON PATENT;"

and if the cask has not been so marked, the reason is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT,
From the Vieille Montagne Zinc Mining Company.—This Company having become Proprietors of all rights to and patents of the late Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea-water, sulphuretted hydrogen, or any gases; besides it preserves its original colour, which White Lead Paint does not. White Zinc Paint cures many of those complaints invariably engendered by white lead, upon the horse-hair, which is usually used for plastering, &c. &c., to which dangerous complaints the workmen, who manufactory and use it, are subject, and to which persons in the inhabit newly-painted apartments are also liable. A spurious article is having been introduced to the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a pure one.—For further particulars and prospectuses, apply to Mr. H. P. FISCHBOLL, General Agent for England and Scotland, at the Company's Offices, 13, Manchester-buildings, Westminster-bridge, and for supply of material and prices, to Messrs. CHANDEVAUX and Co.'s, 68, King William-street, City.

TO the DEPOSITORS of MODELS in MACHINERY, FINE ARTS, &c., in the GREAT EXHIBITION.
ROYAL POLYTECHNIC INSTITUTION.

Gentlemen,—I beg leave to invite your attention to this Institution, which was incorporated by Royal Charter in 1839—one of the many purposes for which it was established was to afford to the public, by highly experimental demonstrations, the principles and advantages of useful and scientific inventions.

The Directors have desired me to say, that if you should feel disposed to deposit any articles in this Institution, and will communicate with me here, your application will be immediately attended to, and if approved, will be received for that purpose, without any expense to your forward carriage and fittings. A ticket for one may be also had by mail article; and in case of sale no charge is made to either vendor or purchaser.—I have the honour to be, gentlemen, your obedient servant,

ROBT. L. LONGBOTTOM, Secretary.

A MESSIEURS les EXPOSANTS
ETRANGERS au PALAIS de CRISTAL.
INSTITUTION ROYALE POLYTECHNIQUE, LONDRES.

Messieurs Les Directeurs de l'Institution Royale Polytechnique ont l'honneur d'offrir à Messieurs les Etrangers qui ont envoyé leurs produits à l'Exposition Universelle une place dans les salles de leur établissement, sans que cela en puisse aucun à détourner d'aucune façon que ce soit le transport et l'installation.

L'Institution Polytechnique, fondée en 1838 avec autorisation royale, se rapporte par son organisation et son importance du Conservatoire des Arts et Métiers de Paris. Elle a reconnaissance du public, tant par les récompenses qui lui furent décernées, que par le concours d'hommes spéciaux qui tous ses jours y donnent leurs services gratuits, les principes et les avantages de toutes les découvertes utiles, aussi que les perfectionnements qui y sont apportés.

Au moyen de cette Exposition générale que les Directeurs de l'établissement mettent à votre disposition ou si désiré de la transporter les résultats de tout leur position. Les Exposants pourront obtenir de nombreux débouchés. Le prix pourra être indiqué sur les objets exposés et le marchands fera part aux personnes intéressées qui pourront être faites pour leur achat pendant le temps qu'ils resteront à l'Institution. Pour les inventeurs, le Secrétaire,

ROBERT L. LONGBOTTOM.
